

Be prepared: Stay on top of your employees' health and safety with a vaccine tracker.

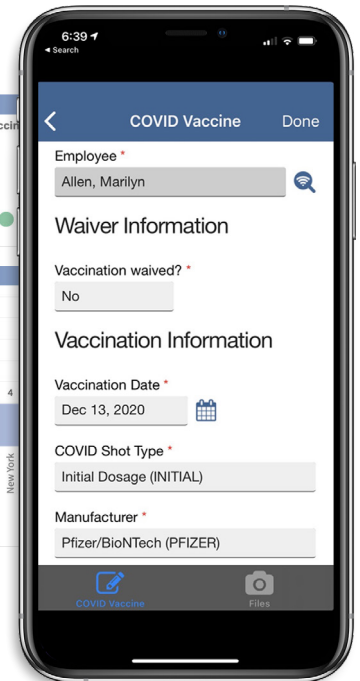

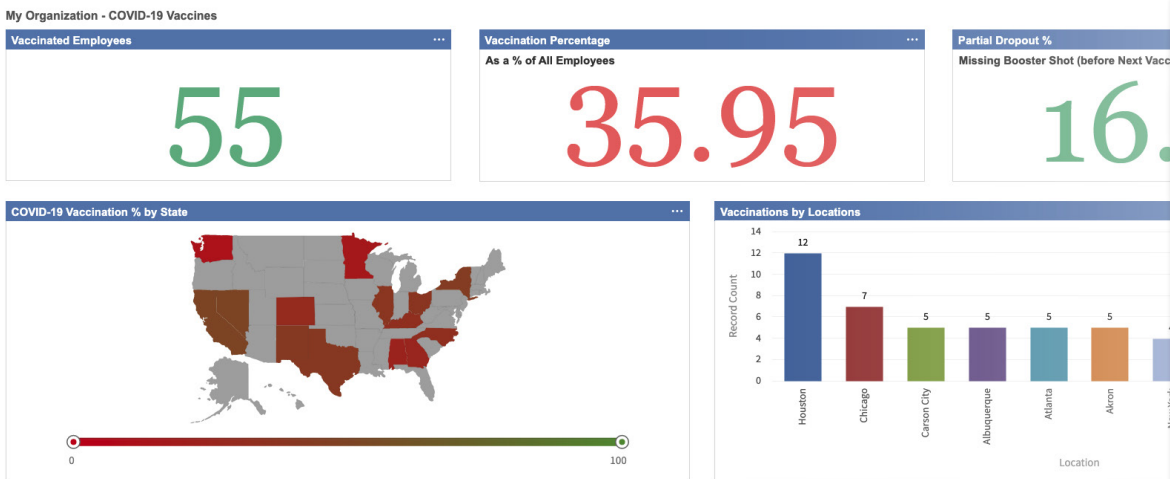

The Vaccine Tracking Solution enables employers to tackle unanswered questions around how and what to track related to employee vaccinations. With potential regulations for reporting vaccines and the need to safely reopen your business, the Vaccine Tracking Solution enables organizations to be proactive in tracking employee vaccinations, booster shots, and more.

Features:

- Use web or mobile forms to report initial vaccinations and boosters, which can be tied to an employee record
- Enable waivers for vaccinations (e.g. due to medical, religious reasons)
- Leverage dashboards and reporting to track vaccination goals or percentage of vaccinated employees by location within a target timeframe

Benefits:

- Easily allow anyone in the organization to report information without the added headache of managing data using spreadsheets
- Gain visibility into the progress of your organization toward its vaccination rate goals
- Be proactive in ensuring your employees are protected and liabilities are reduced
