

Insurance Core Systems on a Single Platform

With Origami for insurers, streamline quoting, underwriting, rating, renewals, billing, claims, and loss control—all from a secure, unified application that's supported by a team of experts dedicated to addressing the needs of insurers.

Policy Administration

- Streamline the underwriting and policy issuance processes
- Manage rating factors, calculations, and underwriting rules in the system without the need for custom development
- Support policy changes and out-of-sequence endorsement processes and persona-specific workflows
- Simplify the updating of exposure values for premium audits with Origami's intuitive data collection tool
- Quickly generate quotes and proposals for prospective and current policies or renewals
- Provide your staff with a centralized system for viewing and updating agency contact information, billings, commissions, policy details, and the status of applications or renewals

Billing

- Free up IT resources with Origami's built-in billing functionality
- Utilize direct bill and agency bill
- Handle premium invoicing, commissions and payments, claim-related deductibles, reinsurance, and more, all from one system

Claims Administration

- Automate claims administration workflows and processes from first notice of loss through final claim settlement, document handling, reserving, and payments
- Leverage data to implement best practices, ensure compliance, and enable collaboration with stakeholders
- Configure workflows and screens to automate your processes and enforce best practices

Loss Control

- Provide risk management tools to your staff and commercial policyholders
- Automate your loss prevention initiatives by creating audit and inspection checklists
- Document and track the results of incident investigations, perform on-site audits, then automate distribution of safety bulletins and periodic follow-ups

Digital Engagement

- Engage policyholders and agents by providing on-demand digital access to their data via a secure portal
- Provide personalized and guided journeys, configured for multiple user types including underwriters, CSRs, adjusters, agents, insureds, claimants, and vendors
- Leverage self-service capabilities to view dashboards, report incidents and claims, generate reports, submit renewal information, and review policy & claim details or pending proposals

Dashboards & Analytics

- Power data-driven decisions with Origami's analytics and benchmarking capabilities
- Make contextual decisions to guide critical processes with Origami's embedded analytics
- Configure dashboards and workbenches for any role
- Deliver and analyze key insights quickly and seamlessly with robust reporting capabilities

About Origami Risk

Origami Risk was founded by industry veterans committed to designing intuitive cloud-based software that streamlines how insurance, risk, and safety data is collected, analyzed, and shared. Origami provides an integrated, unified SaaS platform of products for insurers, program administrators, MGAs, risk pools, third-party administrators, and self-administered organizations. The most experienced service team in the industry ensures that client success is our central focus. Contact us at info@origamirisk.com.
