

With Origami, you can streamline policy, billing, and claims administration from one secure, unified SaaS application that enables digital transformation.

Whether you work for an insurance carrier, program administrator, MGA/MGU, captive, risk pool, third party administrator (TPA), or self-insured organization, our team of experts will collaborate with you to ensure your insurance technology needs are met.

- Streamline policy administration from quote to renewal
- Manage the entire claim life cycle from first notice of loss to settlement
- Facilitate key billing interactions
- Modernize your loss control initiatives with Origami's robust risk management functionality
- Leverage data to implement best practices, ensure compliance, and enable collaboration with stakeholders

### About Origami Risk

Origami Risk was founded by industry veterans committed to designing intuitive cloud-based software that streamlines how insurance, risk, and safety data is collected, analyzed, and shared. Origami provides an integrated, unified SaaS platform of products for insurers, program administrators, MGAs, risk pools, third-party administrators, and self-administered organizations. The most experienced service team in the industry ensures that client success is our central focus.
