

Reduce the Complexity of Workers' Comp Claims

Our secure SaaS platform streamlines workers' compensation workflows, improves benchmarking & analysis, helps ensure compliance, and reduces claims leakage.

Stay Compliant with Workers' Compensation Regulations

Electronic Data Interchange (EDI)

Leverage an **integrated rules-based engine** to **automate EDI-related decisions** and submit information **directly from the claims system**.

Compliance Forms and Correspondence

From a library of over **8,000 state and federal forms**, automatically select and populate the right form directly from your claims data, and deliver the completed document(s) to **regulatory agencies**.

CMS Section 111 Mandatory Insurer Reporting

Automate the CMS Section 111 process to avoid fines by **accurately reporting on time, the first time**.

OSHA Reporting

Streamline workplace injury and illness data collection and reporting processes to help ensure **OSHA reporting requirements compliance and audit clearance**.

Reduce Implementation Time with the Origami Standard Workers' Comp Package

Using Origami's **built-in best practices 'starter kit'**, we **streamline the implementation process** and provide everything you need to begin **gaining value from your claims system**.

Automate Processes to Improve Adjuster Productivity and Claims Outcomes

Indemnity Benefits Calculations

Apply **up-to-date and accurate indemnity benefits calculations** in a seamless, intuitive workflow.

Average Weekly Wage (AWW) Calculations

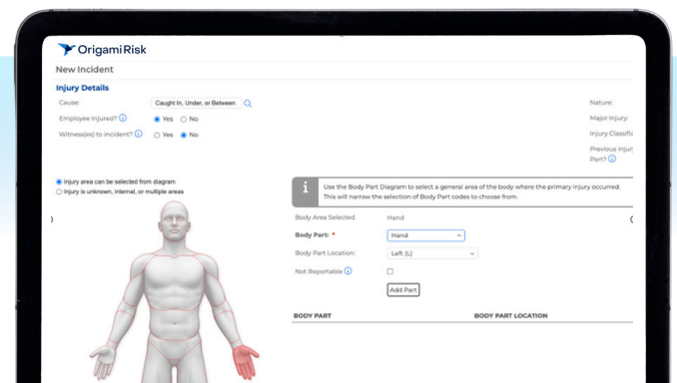

Automate AWW calculations based on state statutes using adjuster inputs.

Return to Work

Access **integrated Official Disability Guidelines (ODG)** evidence-based treatment best practices and benchmarking that help keep claims moving forward to **resolution**.

Third-Party Integrations

Seamlessly integrate with **third-party data predictive models, Medical Bill Review systems, Pharmacy Benefit Management companies, and other workers' comp-related tools**.

About Origami Risk

Origami Risk was founded by industry veterans committed to designing intuitive cloud-based software that streamlines how insurance, risk, and safety data is collected, analyzed, and shared. Origami provides an integrated, unified SaaS platform of products for insurers, MGAs, program administrators, risk pools, and third-party administrators. The most experienced service team in the industry ensures that client success is our central focus.
