

Provider Performance

Provider performance management involves the administration and oversight of healthcare providers to ensure they meet necessary standards and deliver high-quality care. Origami Risk's Provider Performance solution streamlines these processes, enhancing patient safety by empowering administrators to drive error reductions and improve overall care quality.

What is included?

- **FPPE (Focused Professional Practice Evaluation):**
Conduct initial evaluations of new providers or new privileges.
- **OPPE (Ongoing Professional Practice Evaluation):**
Continuously monitor provider performance to maintain high standards.
- **Peer Review:** Facilitate peer evaluations to assess performance of providers, nurses, and residents, and identify opportunities for improvement.

Benefits of Origami Risk's Provider Performance Solution

HOLISTIC VIEW

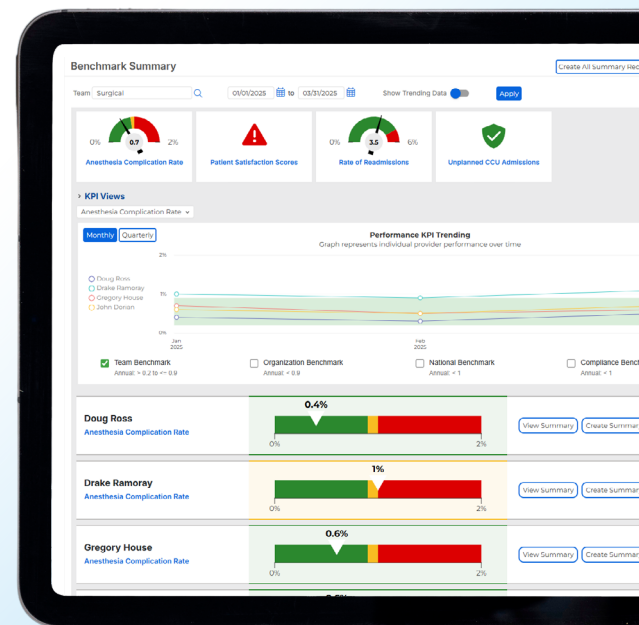

Combining provider performance data with incident reports offers a **comprehensive view of healthcare operations**. A single source for data allows for a more complete understanding of provider effectiveness and areas needing improvement, ensuring that **all aspects of care are monitored and optimized**.

PROACTIVE RISK MANAGEMENT

By identifying potential issues early, healthcare organizations can **prevent adverse events before they occur**. This proactive approach to risk management **enhances patient safety** and **minimizes the likelihood of errors**, fostering a safer healthcare environment.

ENHANCED ACCOUNTABILITY

Tracking incidents and provider responses **promotes a culture of accountability** within healthcare organizations. This transparency ensures that providers are held responsible for their actions, leading to **improved performance and higher standards of care**.
