The suite allows EHS professionals to:

- Promote a **culture of safety** by enabling employees to efficiently report safety issues in a **centralized one stop shop** available via web and our award-winning mobile app. Use AI tools like Emails Assist to quickly summarize incidents via email.

- Centralize data from these tools to gain insight into the efficacy of your **EHS program** and put controls in place to proactively reduce potential **hazards, incidents, risk,** and **injuries** while remaining compliant and tracking the impact of **safety initiatives** on efficiency and workers' wellbeing.

- Tie EHS initiatives with **financial impact,** including **citations, fines, claims,** and **litigation** to monitor the success of your program — since **Origami EHS** is built on the same platform as our **award-winning risk management** functionality.

Pre-configured safety standards

No need to start from scratch — leverage **pre-built standards based on industry best practices** and **regulations** to guide your **safety program** to ensure you are in compliance and keeping employees safe.

Flexible platform

Tailor existing **EHS standard features** to the needs of your organization — or build new functionality — without the need for custom code. Configure **new modules** yourself or with the help of your dedicated service team, in just hours or days, not months, as your EHS needs mature.

Client-centric approach

Access an **award-winning services team** that partners with you and is available to train your team to ensure your success throughout **implementation and support.** Free **quarterly platform updates** are seamless and based on **client feedback.**

Efficient workflows

Leverage **automated workflows, notifications,** and an **easy-to-use web and mobile platform** to increase reporting, drive **accountability,** and decrease time spent on manual, **repetitive tasks.**
