

Comprehensive Pool Management Cloud Software

Streamline critical functions including member management, underwriting, renewals, billing, claims administration, risk management and loss control—all from a single, unified platform designed to address the challenges of member-owned non-profit pools.

Less downtime, more service

Origami Risk's rapid implementation, efficient data migration, and out-of-the-box functionality minimize downtime and accelerate savings. Regular feature updates ensure pools are always on the latest version, maximizing service delivery.

Empower member self-service

Allow members to view and submit claims, renew policies, and access data effortlessly, driving member engagement and satisfaction with powerful member portals.

Control your workflow

Origami Risk's advanced business rules, assignment, and admin flexibility allow pooling organizations to manipulate fields and views without relying on external coding, saving the hassle of lost time and expense of traditional vendors.

Connect data silos

Origami Risk breaks down barriers between disparate data sources across policy, claims, loss control, and risk management, providing a unified view of member information for better decision-making.

Enhance staff efficiency

Empower staff to accomplish more with a platform that automates routine tasks and adapts to your flow of work, freeing up valuable time for member service and strategic initiatives.

Insightful reporting

At-your-fingertips, personalized reporting and benchmarking capabilities make data analysis straightforward and powerful. Use dashboards, charts, and graphs to gain actionable insights, anytime or anywhere.

“Anything we need to drive member value is now possible. Origami's attractive, configurable UI and robust API framework enable the IT team to support the business in ways that just weren't possible before.”
