# Proactively Manage Enterprise Risk and Resilience

Origami Risk

Designed to help organizations **identify, assess, and mitigate risks** across the enterprise, Origami Risk's ERM platform **strengthens operational resilience** by providing a clear, actionable view of enterprise-wide risks. Whether facing strategic, financial, operational, or compliance risks, **our solution ensures that your organization can adapt and thrive** in a rapidly changing environment, protecting both assets and reputation.

Proactive Risk Management

Identify, assess, and mitigate risks before they impact your organization, enhancing resilience and stability.

- **Identify and assess risks across the enterprise** to enhance risk visibility and mitigation efforts.

- **Define and manage risk appetite and tolerance** levels to ensure decisions align with organizational goals and thresholds.

- **Centralize your risk register** to effectively track and manage risks, improving risk response.

Strategic Decision Support

Align risk management with business strategy by understanding the potential impact of risks on organizational objectives.

- **Gain a comprehensive, real-time view of your organization's risk landscape** to enable more strategic and informed decision-making.

- **Connect risks to business objectives** to align risk appetite with the organization's goals and strategic priorities.

- **Align KRIs and KPIs with your risk appetite** for any risk with automatic notifications to ensure timely responses and issue management.

- **Simplify the collection, approval, and updating of your risk register** to ensure efficient and effective risk management.

Improved Resilience

Strengthen your organization's ability to navigate uncertainty and respond to emerging risks effectively.

- Utilize **workflow tools** for developing and implementing risk mitigation plans to streamline processes and minimize risk impact.

- Connect risks to **controls, risk plans, policies, locations, claims**, and more to improve resilience and organizational preparedness.

Comprehensive Risk Visibility

Gain a complete, integrated view of enterprise-wide risks, enabling more informed decision-making and resource allocation by connecting risks to controls, processes, regulations, and more.

- Centralize all risk-related information into **one platform** to foster collaboration and eliminate departmental data silos.

- **Automated risk reporting** with configurable dashboards enhances visibility and empowers making **data-driven decisions quickly and confidently**.
