

Deliver the full workers' compensation lifecycle, faster

Policy, billing, and claims on a single, modern platform.

Workers' compensation is one of the most operationally complex lines of insurance, and lengthy implementation timelines delay value realization. Origami Risk changes that with a cloud-native platform that unifies policy administration, billing, and claims workflows — giving you the foundation to deploy with confidence and start realizing value sooner.

Import Status	State Code	Location ID	Job Class Code	Actual Payroll Amount

Streamline workers' compensation policy administration

Reduce implementation time and manage the full policy lifecycle from a single system.

- Accelerate deployment with a pre-configured policy foundation built for rapid implementation.
- Import NCCI bureau content for up-to-date rates, rules, and forms without manual setup.
- Generate quotes and proposals quickly.
- Manage endorsements, renewals, cancellations, and reinstatements with pre-built, post-issuance workflows.
- Configure underwriter workbench dashboards, agency management tools, and business rules without custom development.
- Maintain rate tables, rating formulas, and associated policy documents with self-service configuration tools.

Simplify billing and premium collection

Turn billing into a reliable touchpoint for policyholder engagement and retention.

- Support workers' comp pay-as-you-report billing.
- Offer standard and custom payment plans to accommodate policyholder preferences.
- Automatically generate accurate invoices, track payments, and provide dynamic premium recalculation.
- Accept multiple payment types, including ACH/EFT and credit card, through pre-built payment provider integrations.
- Automate commission calculation and management, including chargebacks for cancellations or non-payment.
- Trigger delinquency and cancellation workflows based on configurable business rules.

Manage claims from first report to final settlement

Reduce adjudication costs and drive better outcomes across the workers' comp claims lifecycle.

- Automate intake, triage, and routing to prioritize and assign claims effectively.
- Optimize return-to-work and leave-of-absence management within claim files to improve outcomes and support compliance.
- Manage reserves, payments, and outstanding balances across individual claims and portfolios.
- Maintain regulatory compliance with automated FROI/SROI submissions, jurisdictional reporting, and OSHA documentation — reducing manual effort and errors.
- Leverage AI-powered claim summaries to identify high-risk claims early and inform adjuster decisions.
- Deliver exceptional claimant experiences with digital engagement tools and communication workflows.

Go further with RMIS and loss control

Differentiate your workers' comp offering with capabilities that extend beyond core administration.

- Connect claims data to risk management and loss control workflows to identify trends and reduce losses.
- Give commercial policyholders visibility into their claims portfolio through secure, branded access to real-time data and analytics.
- Leverage a unified platform that bridges insurance operations with broader risk and safety programs.

Built on a platform designed to scale.

All Origami Risk solutions are delivered on a unified, cloud-native platform that simplifies administration, automates any workflow, and puts AI to work where your teams need it most. The result is a foundation that scales with your workers' comp operations — without adding operational overhead.
