

# Expand your impact inside a growing risk and insurance ecosystem

Origami Risk is a cloud-native platform supporting insurance carriers, MGAs, brokers, TPAs, and corporate risk management and safety teams across the full lifecycle of risk and insurance operations.

The Origami Risk Marketplace extends that platform with a curated ecosystem of partner solutions, connectors, and workflows — all built around real operational use cases. Clients and prospective clients use the Marketplace to discover, evaluate, and activate integrations that enhance their operations.

By participating, you can elevate your visibility, highlight your solution's value, and connect with buyers right when integration decisions are taking shape.

## Why participate in the Origami Risk Marketplace?

### Expand brand reach and awareness

Your solution shows up when clients explore integrations, helping place you in front of buyers ready to take the next step.

### Shorten the path from integration interest to engagement

The Marketplace helps turn discovery into action. Clients can easily express interest through their Origami Risk account manager and move toward meaningful conversations.

### Align to real workflows

The Marketplace aligns your solution to specific use cases and workflows, helping clients clearly see how your technology supports real operational needs — not just where it fits, but why it matters.

### Strengthen your position within the Origami Risk ecosystem

Participation helps you get discovered, showcase your value, and drive awareness for new opportunities — right when clients are searching for answers.

## What participation includes

### Baseline participation in the Origami Risk Marketplace provides:

- A branded partner profile (logo, description, solution overview).
- Association with relevant connectors, workflows, and solution categories.
- Visibility when clients evaluate integration options.
- Origami Risk-tested workflows and connectors for reliable activation.
- No cost for baseline participation.

Partners can further enhance their presence with additional engagement features as the Marketplace evolves.

## How the Marketplace works

1. Clients discover new ways to work smarter by exploring workflows and integration opportunities within Origami Risk.
2. Your solutions are surfaced at the right moment when they're most relevant to client needs.
3. Clients get a clear, engaging view of your offerings, including use cases, capabilities, and how you integrate.
4. When there's a strong fit, clients can share their interest with their account manager, paving the way for meaningful conversations.

The Marketplace helps clients seamlessly move from discovering solutions to putting them into action, all while keeping everything aligned with platform standards and governance.

---

## Built for ecosystem growth

### As the Origami Risk Marketplace expands, participating vendors benefit from:

- Increased exposure across a growing user base.
- Broader workflow coverage and integration visibility.
- Potential co-marketing and promotional opportunities.
- Expanded engagement insight capabilities.

The Marketplace is designed to align your solutions with real client needs, ensuring you're part of the conversation when important technology decisions are made.
