

Origami Risk software solutions for brokers

Deliver more value and efficiency to your clients.

Stand out in a competitive landscape by going beyond traditional services to meet rising client expectations and the demand for technology-driven solutions. With Origami Risk's AI-enabled RMIS platform, you can deliver measurable outcomes and strategic value. You'll find powerful tools to enhance internal efficiency, improve client service, and uncover new business opportunities. With its centralized, data-driven approach, you can differentiate your business, retain more clients, win new accounts, and deliver measurable results.

Claims management made smarter

Gain full visibility into claims and drive better outcomes.

- Centralize claims data across all lines of coverage in an accessible, consistent format to boost efficiency and accuracy.
- Leverage real-time dashboards, automated alerts, and track communication with clients and carriers to support faster, more informed decision-making.
- Apply AI-powered analytics to flag emerging trends, surface high-severity claims earlier, and help mitigate future losses.
- Access a central repository for notes, diaries, emails, and file attachments to improve collaboration with clients and claim handlers.

Exposure management and risk visibility

Track and manage exposures with precision and confidence.

- Oversee exposure collection process across client base with a centralized collection tool and database.
- Automate updates and reduce data entry errors.
- Visualize exposure trends across portfolios.
- Support underwriting and renewal processes with accurate data.

Insurance program management and portfolio insights

Modernize insurance program management with AI, automation, and a complete portfolio view.

- Leverage AI-powered policy ingestion to quickly extract and organize policy data, reducing manual entry and accelerating onboarding.
- Build and visualize complex insurance program towers in a centralized system — eliminating spreadsheets while improving accuracy and collaboration.
- Gain a real-time portfolio view of policies, carriers, limits, premiums, and program performance to better manage client portfolios and support renewal strategy.
- Streamline placement management and endorsement tracking with automated workflows that improve visibility, reduce administrative effort, and keep program changes on track.

Captive management support

Centralize data and insights to optimize captive performance.

- Provide unified view of claims and policy data.
- Analyze loss trends and retention levels.
- Support actuarial analysis and financial planning.
- Maintain letters of credit and key documentation to include LOCs and compliance information.

Streamline internal operations and client delivery

Enhance efficiency and elevate client service with centralized data and automation.

- Reduce time spent on manual data manipulation and tasks.
- Automate reporting, workflows, and communications.
- Deliver consistent, high-quality client outputs.
- Focus more on insights and consulting, and less time on administrative tasks.
- Improve client outcomes with data-backed recommendations.
- Boost client retention through elevated service and sophistication.

Accelerate prospecting and new business growth

Streamline workflows, ensure compliance, and implement practical AI capabilities.

- Use Origami Risk deliverables as a compelling sales wedge.
- Strengthen broker pitches and RFP responses with advanced capabilities.
- Identify and substantiate the need for additional service offerings through system insights.

One unified platform, built for resilience

Leverage technology as a differentiator in competitive pitches.

- Scale with your clients' risk management and safety programs.
- Advance automation and drive actionable insights with AI-powered analytics.
- Leverage dashboards, scheduled reports, and analytics to enhance broker oversight of clients or provide as a resource for client usage.
- Instill confidence with secure, scalable architecture.
- Provide seamless integrations with API-driven flexibility.

About Origami Risk

Origami Risk empowers leaders in insurance, risk, and safety with a purpose-built, cloud-native platform that optimizes workflows for better data, better insights, and better collaboration. Through highly configurable solutions integrated on a single platform, Origami Risk supports the management of the full lifecycle of risk, from prevention to recovery — helping the experts reduce harm and loss, and respond more rapidly and effectively when it happens. Grounded in continuous innovation and a foundational focus on client success, Origami Risk is trusted by leading organizations to enable greater resilience as they build for the future.
